

Prioritize Your Projects

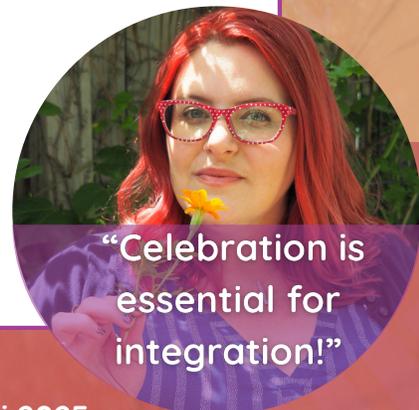

Which of my current initiatives can benefit most from the insights I received in the Soul Wisdom Journey?

What support or resources do I need in order to take action?

What impact will it make on me, my life, my business, or my community when this initiative is realized?

What is one small action I can take right here, right now to move me closer to this?

Now go do it, and don't forget to celebrate your progress along the way.

“Celebration is essential for integration!”
